DETAILED ACTION

Applicants amendment of the specification, cancellation of claims 1-10 without prejudice or disclaimer and addition of new claims 11-27, Paper No. 4, 2/20/2002, is acknowledged.

Election/Restriction

Claims 11-27, are drawn to an isolated polynucleotide, chimeric gene, host cell, and virus, and plant comprising said polynucleotide and methods of expressing said polynucleotide, classified in class 435, subclass 189.

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- (1). SEQ ID NO: 9 or a sequence encoding SEQ ID NO: 10
- (2). SEQ ID NO: 11 or a sequence encoding SEQ ID NO: 12.
- (3). SEQ ID NO: 13 or a sequence encoding SEQ ID NO: 14.
- (4). SEQ ID NO: 15 or a sequence encoding SEQ ID NO: 16.

It is acknowledged that the claims 11-27 each read on all of the above groups.

The claims will be examined to the extent that they read on the elected group only.

The inventions are distinct, each from the other because of the following reasons:

Inventions (1)-(4) are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In

the instant case the different inventions, represent structurally different polynucleotides. Therefore, where structural identity is required, such as for hybridization or expression, the different sequences have different effects and require different searches.

Because these inventions are distinct for the reasons given above and the literature and sequence searches required for each of the Groups are not required for another of the Groups, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a petition under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(I).
